

Every ExcelConferencing.com product and service is available 24 hours a day, 365 days a year.

## Your Key to Effective Collaboration...

**WebEx™** is ExcelConferencing.com's web premiere conferencing solution that integrates the high quality of audio conferencing with the interactive power of the Internet, allowing you to leverage the productivity of real-time data collaboration.

WebEx enhances business communications, providing you with the benefits of a personal meeting without the associated travel time and costs.

## Industry-leading features that will enhance your collaboration:

- Simultaneous WebEx™ and Audio Conference scheduling
- Multiple platform support
- Document, spreadsheet, presentation and application sharing
- Web tours within the WebEx™ interface
- File uploads, downloads, and direct transfers
- Polling and chat functions
- Multiple host control
- Real-time participant lists
- "Private Label" options to support corporate branding
- Remote computer access
- Whiteboard
- Archiving
- Firewall friendly
- Backup and redundancy capabilities
- Any time, anywhere availability

## Productivity Improvement Benefits Include:

Reliability	A globally distributed, fault-tolerant, carrier-grade network
Security	Unlisted meetings, passcode protection, and data encryption ensure collaboration security
Customization	Add WebEx™ to your intranet to reflect your company's "look and feel"
Scalability	Supports up to five hundred simultaneous participants
Convenience	Confirmations include a web link and toll-free number
Accessibility	Equal access for dial-up or network connections
Ease-of-Use	One-time download of less than 3MB
Flexibility	Works with Macintosh, Windows, Solaris, Linux and any desktop applications without conflicts

### Additional enhanced services:
